## County Bar Wins First In State Bar Contest

The Madison County Bar Association has been named first place winner of the Illinois State Bar Association's fourth annual Project of Merit competition in the Class "B" bracket.

The announcement was made at the 89th annual meeting of the state bar at the Chase-Park Plaza hotel in St. Louis. The judging meeting ended Saturday. William Beatty, Granite City attorney, is president of the county bar.

The competition is held to encourage bar associations to increase their activities in behalf of the public and to encourage the interchange of ideas.

The award was made on the basis of the county bar's debate on "Free Press Fair Trial." The county won second place last year on a "This is Your Life" theme, honoring one of its senior counselors, and first place the previous year.

Class "B" includes associations in the 31 to 150 membership bracket.

The free chest x-ray program conducted in the Quad-Cities and other parts of Madison County earlier this year by the Madison County Tuberculosis Association brought to light a series of active tuberculosis, cancer and tumor cases. Disclosures that will permit many to accomplish cures through early discovery of the diseases and immediate treatment.

Results of the survey, conducted from March 2 through April 24, revealed nine active cases of tuberculosis, a total of 36 tuberculosis suspects, 12 chest cancer and 31 chest tumors. The 12 chest cancers have had surgery and the chest cancer cases followed, while the chest tumor cases also are being rechecked for further developments and treatment.

Mrs. Betty McClintock, executive secretary of the association, said that 117 persons have failed to visit their physician or to appear to have larger x-ray films taken in accordance with notices sent them after disclosures made by the first x-rays during mobile unit visits in various parts of the county while the survey was being made.

23,141 X-rays taken  
During the survey a total of 23,141 x-rays were taken, and that number 737 chest conditions were discovered, the report showed.

When chest conditions are found, the radiologist may request a larger film. The results are forwarded to the personal physician and the individual asked to contact the physician for further instructions. Any previous x-rays showing chest pathology are attached to the person's card with the new x-ray and film comparisons can be made.

Aim of the follow-up program is to be sure all persons with chest pathology are consulting their physician. All x-rays and films are kept on file for ten years. The results of the x-ray are the privileges paper of the individual and his doctor. Names are never reported in an statistical data.

The follow-up includes a registered nurse visiting the individual's home if the person has not checked with his doctor. This procedure is followed only after a letter and telephone call fail to produce results. The procedure followed especially in the active tuberculosis, chest cancer or other serious chest abnormalities.

May Obtain Reports  
Anyone desiring reports of the chest x-ray survey may write or call the association office and films and literature are also available upon request. The office is located at 114a North Main street, Edwardsville; telephone 656-0262.

The survey report reveals that the greatest number of chest ailments of various types was found in the 51 to 60 age group, where 205 of the 737 cases occurred, with the 41-50 group a close second.

## Budget may be Major Topic for GC Council

The new city budget—still in the making—may be the major topic of tonight's 8 o'clock session of the Granite City Council. Council members are scheduled to meet earlier tonight at 7:45 as the town board of auditors.

The budget was to have been discussed at a caucus session last Wednesday night by Finance Chairman Paul Rutledge, but the meeting was called off when it was learned only a few aldermen could attend.

The council had two weeks off, but at the June 7 session, a proposal was made to add six firemen to the fire department in the current fiscal year. It was pointed out that the city will be getting its new fire truck type fire truck—a gift from Granite City Steel Co. in exchange for behind-the-mill streets and alleys—and that added manpower would be needed.

**Ice Cream Truck Ban**  
Action is pending on a recommendation for prohibiting the operation of ice cream vending trucks on Granite City streets.

**Engineering Bill**  
An opinion is expected from City Attorney Richard Allen on a \$2714 bill submitted by David J. Johnston & Associates for engineering services for the 23rd and Adams street track removal and drainage project. It is contended that the firm as the former public engineer cannot receive additional compensation.

Proposed last week during the first meeting of the city's new Traffic Study Commission was a recommendation that all stop sign requests be channeled through the commission for review, subject to council approval. A petition for a zoning change for 2700 Iowa street from R-3 single-family dwelling to R-5 multiple family for an apartment with four three-room units is being submitted by John Sobol, local realtor for Newark Development, Inc. owner.

Clerk Homer "Cal" Pendleton has reports from the state advising the city of its May allotment of \$21.45 for motor fuel and \$24,352 city sales tax for March.

The city's first financial report for the fiscal year is to be submitted.

## SWIU Sewage Discharge Halted by Court Order

An injunction restraining Southwestern Illinois University from discharging wastes from its sewage treatment plant into a watercourse near Poag road was granted Thursday by Judge Joseph J. Barr in circuit court at Edwardsville.

The judge, however, denied a request for an injunction to prevent SWIU from proceeding with construction of a dam to provide a 77-acre lake or reservoir to provide water for heating and refrigerating buildings on the campus.

The suits were filed last Sept. 28 in circuit court by Dr. Leroy A. Fink, an Edwardsville dentist, and Clarence W. Bohm, who has properties north of the treatment plant and the reservoir dam. SWIU attorneys said they would appeal the restraining order.

The watercourse separates the properties owned by the plaintiffs. They contended the discharge of waste would cause a nuisance which would deprive the value of the properties and prevent the use of the watercourse for recreational purposes.

The university had planned to discharge a million gallons of effluent a day from the plant with a projected capacity of two million gallons a day to be piped into the watercourse which leads to Cahokia Creek and then to a diversion channel to the Mississippi river.

Madison Ave. Accident  
A car driven by Joseph R. Rustermann, Rural Route One, struck the right rear of another car driven by Herbert E. Heston, 2224 East 24th street, as they were passing a truck 3:15 p.m. Thursday at 1500 Madison avenue.

Motorists Neglectful, Even Without Charge

Proof that the driving public can be delinquent in its responsibilities—even when it doesn't have to pay for it—is demonstrated in Madison where Chief of Police Emmett Padua urged today that Madison motorists obtain their wheel tax stickers at the city clerk's office and display them on the windshields of their automobiles.

The wheel tax fees have been available for more than a month. Padua pointed out the law requires that the stickers be displayed on the windshield. He urged that all motorists comply with the law by July 1.

The police chief pointed out that a number of motorists have failed to obtain their stickers thus far.

Madison wheel tax stickers are distributed without charge.

A burial permit or disposal of a dead human body may be issued under certain circumstances to some person other than a funeral director or a "person acting as such." ## Attorney General Wins Test Case; Issues Opinions

Attorney General William G. Clark has won the first test case of the subpoena powers granted him by the Act to Prevent Consumer Fraud. Clark asked and received in the Jackson County circuit court at Murphysboro an injunction restraining the Allied Heating & Air Conditioning Co. from doing any business until commands of the subpoena which Clark's suit alleged operators of the company ignored, are obeyed.

The operators were ordered by the subpoena to appear at Murphysboro with all company books and records and the subpoena was ignored. Clark's suit alleged.

In other action reported out of the attorney general's office at Springfield, Clark has ruled that metal studied tires cannot legally be used upon Illinois highways. The Uniform Act Regulating Tires on Highways provides, Clark's opinion said, that no motor vehicle shall use state highways with tires so constructed that "any rigid or non-flexible portion of same comes in contact with the pavement."

## Births Decrease Sharply, Marriages Up During May

The number of births in Madison county during May decreased by 40 below the number of the same month a year ago, the number of deaths varied by only one and the number of marriages jumped sharply, according to a report compiled by the office of County Clerk Eulalia Hotz.

The report shows that May births included 132 boys and 123 girls, a total of 257, compared to 152 boys and 149 girls, a total of 301, during May 1964. In May a year ago four sets of twins were born in the county but last month only one set was recorded.

A total of 150 deaths was reported for May this year, an increase of only one over the 149 reported in May 1964.

Marriages, however, increased from a May 1964 figure of 134 to 208 last month.

## Mr. and Mrs. I. G. Bruemmer Golden Wedding Anniversary

The 50th wedding anniversary of Mr. and Mrs. Ignatius G. Bruemmer, 1531 Fourth street, Madison, will be observed tomorrow by members of their family and close friends at three separate events.

The family will attend an 8 a.m. Mass of Thanksgiving at St. Mary's Catholic Church, Madison, followed with a breakfast at the Grand Cafe. Tomorrow evening, an anniversary dinner will be held at Rogers Hall, St. Louis.

Mr. and Mrs. Bruemmer were married June 22, 1915, at St. Mark's Catholic Church, Venice, Italy.

Until his retirement five years ago, Mr. Bruemmer operated an agency of the Excelsior-Laundry in the Quad-Cities for 40 years.

Their three children, all of whom will attend the celebration, are Dr. Joseph H. Bruemmer of Buffalo, N. Y., a research chemist with the Luntz Corp., Miss Mary Bruemmer of St. Louis, who is director of women's housing at Saint Louis University, and Norbert Bruemmer of Scottsdale, Ariz., a school teacher.

Dr. Bruemmer's wife, Dr. Nancy Bruemmer MD, spent the past weekend in Madison, but returned today to Buffalo, where she is completing her internship at the Milwaukee Pilgrimage Hospital.

Among those who will attend the dinner party are Rev. Engelbert Benek, OFM, pastor of St. Mary's Catholic Church; Dr. Rev. Monsignor Leo Ringwald of Memphis, Tenn., a cousin; Mr. and Mrs. Joseph W. Berzath, Mr. and Mrs. H. H. Bruemmer, H. H. Bruemmer Jr., and daughter, Donna, and the immediate family.

## Merry-Tchoukaleff Wedding At Wood River Methodist

The Wood River First Methodist Church was the setting of the bride and the son of Mr. Saturday evening for the wedding of Mrs. Carroll Pashea, also daughter of Miss Anita Tchoukaleff of Granite City.

Wedding music was furnished by Mrs. Harry Hansen, organist, and Miss Judy Bernes, soloist.

The former Miss Tchoukaleff wore a classic gown of white tulle and imported Alencon lace re-embroidered with seed pearls and iridescent. Deepened with a fitted bodice, scooped neckline and sleeves to the elbow, the gown featured a detachable chapel-length train of white organza. Jeweled lace appliques enhanced the midriff, sleeves and deep hemline and the bouffant veil of pure silk illusion was secured to a double crown of pearls and crystals. A white orchid surrounded with stephanotis and lilies of the valley made up the bridal bouquet.

Miss Nancy Jateff was the maid of honor and Miss Valerie Pashea served as bridesmaid. The bride and groom are cousins of Angela Lynn Naglich, the bride and reside in Granite City.

They were dressed alike in romance blue silk organza, fastened with rounded neckline and elbow-length sleeves. Their Empire bodices were banded with white Venise lace and the long, dome-shaped skirts had a self-trimmed rose and bow at the back waist, accented a floating panel which draped to the hemline. In their hair they wore colored bows with tiny veils and they carried a cascade of pink sensation roses.

The flower girl was the bride's cousin, Lynda Donoff, daughter of Mr. and Mrs. Alton Donoff of Granite City, and the ring bearer.

**THE WGN CLUB DERBY!!**  
BY...MR. GNU

We're swinging into the back stretch of this year's Derby and the rest of June and July and August will tell the story on the big cash awards as well as the top merchandise awards including the new Buick Station Wagon and the new Zenith Color TV set — DON'T LET UP if you're in one of the front running clubs and DON'T GIVE UP if you're one of the organizations running behind!

Note the point awards for Key ovals and wrappers — all ovals henceforth will be worth 5 points apiece, regular ham wrappers 100 points apiece and Gourmet Ham wrappers 200 points. Buy Key meats and roll up a big point total!

Some of the coupons are coming in without amount of purchase on them — be sure to check this at the time you present the coupon to the Derby sponsor.

Don't forget the bonus sponsors for the July 6 turn-in: Burger Chef, Kline's Decorators, Lazenby Photographers, Mathis Repair, Mueller's Sausage Mart and Merle Norman Cosmetics. A total of \$100 in coupon purchases from any of these is worth an additional \$500 points to your club. Some of the organizations are nearing that total now, so keep it up — this could make the big difference.

Remember too — double points on all decorator cakes from Frenchie's Belleme bakery... and double points on all diamond purchases from Harvitt!

We're opening up the registration days at McTackin Buick again! A big 50 points for every registration from now until the end of the Derby! Only one registration per person per month and no children — so get your friends down to McTackin in Collinsville and this is an easy way to roll up those big point totals!

One of our bonus sponsors, Mueller's Sausage Mart, has been closed for vacations for the past two weeks but they are reopening today — remember, a total of \$100 in coupon purchases means a bonus of \$500 points!

You have two weeks — until the July 6 turn-in — to cash in on the Granite City Trust and Savings Bank Vacation Club bonus. Be sure to take advantage of this!

Do a good job of distributing the bonus coupons. Getting these out in big quantities to people willing to help your organizations will account for the big point totals toward a large share of the \$5,000 in cash prizes and the thousands of dollars in merchandise awards. Don't hesitate to call us for more coupons — we can supply all you need!

Another of our bonus sponsors, Mathis Repair, is open nightly until 8:00. They are factory trained experts on any type of appliance and you might have particular need of their services on your air conditioner if you have any problem.

Did you know that one of our sponsors, Frankie Townsend, was once a singing cowboy star mentioned in the same breath with fellows like Gene Autry and Roy Rogers! And Frankie can still play a mean gut-tarrrr!

Be sure to dig Annie Oakley Burton's Derby news each morning at 9:30 and each afternoon at 2:30 — WGN, 920 kc.

ON THE LAST LEG of a 450-mile journey down the Mississippi River are Bill Schoofs, 18, and Dave Loomis 17, recent high school graduates of St. Joseph's College. Edgion, home the morning following their graduation June 5 in this 18-foot canoe.

## Long Canoe Trip by Seminary Students

Senior trips take many forms, one of the most unusual was that of two seminary students who completed their high school studies at St. Joseph's College, Edgion, Wis., June 5.

The boys ended a 12-day canoe journey late Friday afternoon as they passed through the Chain of Rocks Canal locks and continued to their destination, St. Louis.

Dave Loomis from California, the younger of the two explorers, said that his companion, Bill Schoofs of South Beloit, Ill., came up with the idea of the trip while they were "cramming" for their final exams. After receiving their diplomas and graduation gifts, the two combined their graduation money, about \$45, and launched the 18-foot canoe.

The young voyagers spent an average of 10 hours a day in their canoe, starting at 9 a.m. and quitting at dusk. They started on the Rock River, which runs through South Beloit, and entered the Mississippi at Rock Island, Ill.

Sleeping in a tent, the two made camp at 35-mile intervals or at the day's end. Schoofs said the canoe never tipped over, but it came pretty close when some of those big barges came by.

After 12 days of paddling, the two reached the St. Louis shore where they were met by fellow students of St. Joseph's with whom they stayed for the weekend.

The trip ended Sunday when Schoofs' father picked up the explorers and they returned to South Beloit.

## Nighthossian Hurls Gem

**Antoff, Hiles Homer Twice in Inning Same Night in Open Slow-Pitch Games**

Scorekeeper Rich Neumann was taken aback in three years of scoring Granite City park district softball games, no player had ever hit two homers in one inning.

Then Thursday night, the feat was achieved twice. Sonny Antoff of Mexican Honorary Commission was the first, rapping two roundtrippers in the first inning.

Then Thursday night, the feat was achieved twice. Sonny Antoff of Mexican Honorary Commission was the first, rapping two roundtrippers in the first inning.

Legion Scores Fourth League Triumph, 7-1

Retaining first place and chalked up its fourth league victory without a defeat, the Granite City American Legion defeated Maryville 7-1 Friday at Wilson Park. The game was called due to darkness after five and a half innings.

Bill O'Neill went the distance for the mound for Granite City, hurling a five-hitter and shutting out Maryville until the top half of the sixth. His teammates also had five hits, including a triple by Eugene Bryant and a double by Joe Fanning.

Granite City fielded flawlessly while the visitors erred twice. It was the third errorless game for the local squad, which tallied four times in the third inning and added three runs in the fifth.

Granite City will play in Alton at 6 p.m. Tuesday and will be host to Glen Carbon at 6 p.m. Friday.

**Beverly Rusick Enters National Tennis Tourney**

For the first time, Southern Illinois University, Carbondale, is moving onto the national scene in women's collegiate golf and tennis. Two SIU aspirants—Margaret Stagner of Murphysboro and Beverly Rusick of Granite City will enter the Women's National Intercollegiate Tennis Tournament June 23-27 at Greensboro, N.C.

Paula Smith of Belleville will be a contender in the Women's National Golf Tournament at Gainesville, Fla., June 21-23. Margaret, 21, is a senior, while Beverly and Paula are both 18-year-old freshmen.

Beverly, who has been playing since she was 12—her parents, Mr. and Mrs. Alex Rusick, at 2711 Idaho street, fortunately have across the street from the Wilson Park tennis courts. She has played in Granite City park district tournaments, the Granite City Open and other Illinois and Missouri opens, and has garnered over a dozen trophies, mostly in singles play.

**Jacobsmeyer's Loses Three by Forfeiture**

Jacobsmeyer's of the 35 & 40 League has forfeited three games earlier because of an ineligible player used in the slow-pitch softball contests, the Granite City park district office announced today.

Harold Brown, director of parks and recreation, said player Jim Reiter did not attain age 35 until 25 days after the league's May 1 cut-off date. Through a misunderstanding, Jacobsmeyer's believed the cut-off date to be June 1, Brown said.

A 12-8 victory over VFW will stand, since Reiter did not play. Reiter will remain ineligible for 35 & Over play until next season.

**ALL-STAR first baseman selection of the National Association of Intercollegiate Athletics Robert Hoffek, a Granite City high school graduate, has accepted a position to teach in September at Jefferson Junior High School, Charleston, Ark. Hoffek, son of Mr. and Mrs. Rudolph Hoffek, 2500 Lynch avenue, will graduate in August from Eastern Illinois University, Charleston. ### SWIU Graduates Told of Need for Citizen Action

The "ferment" taking place these days on the American campus Thursday night as a newly discovered national resource for energizing our society and speeding it toward what it must become.

"There will be some mistakes," said Harold B. Gores, president of Educational Facilities Laboratories, New York. "There may be some colleges which will be nearly ruined by unthinking ferment."

But Gores, whose agency sponsors research for improvement of educational buildings and equipment, feels that "the net effect of students caring about important matters will be a positive good."

Warns Against Withdrawal "That's what I'm afraid of," he told the 500 graduates, "is that the typical college senior graduating this month from 2000 institutions in this land will smuggle into the warm bosom of the affluent society and leave to the undergraduates the task of

the task of reminding all of us that there is unfinished business in the world."

"You will live in troublous times," Gores asserted. "You can hedge and let the rest of the world go by; you can keep your mouth shut and you can play it cool and not fight city hall. Or you can engage in the stir of the town and the times."

The world has a lot of business to conduct, and it's your generation's business."

The emergence of new nations in the world, social and economic problems at home, and rapid scientific advances are cited by Gores as reasons why today's college graduates "cannot go your private way."

"You cannot go your private way," he said, for example, "as long as cupboards are bare anywhere; whether Harlem or Appalachia or South Chicago or Selma; or tomorrow in Caracas or Cairo or Calcutta; whether on the face of this one inhabited star men crave to live and to learn."

Never have so many had it so good for so long, Gores said, but whether we remain free at home and safe in the world — depends on whether today's college graduates continue to care your after year "about matters not central to your private life."

## NEW HORIZONS FOR SENIOR CITIZENS

To the Editor:

During a recent membership drive for senior citizens at the Granite City YMCA, I kept thinking of the little old lady and Grandmas and Grandpas to come in and "join up."

I am still waiting. The establishment of a grandparent corner in his or her chair in a four-ten corner is a fallacy, they simply do not exist.

Often, however, we do have people join the group who have perhaps lost a husband or wife, and are finding it extremely difficult to adjust to living alone. Their children are usually grown to them and would welcome them taking part in the activities, but they do not want to find that this is not the case. They are looking for something to do on their own.

Once they make friends and start taking part in the group's many varied activities, they find it right in here at the Granite City YMCA. Their own ideas are central to help carry out group projects, and they soon begin to work to a new way of life.

At the "Y," senior citizens are encouraged to contribute to their own program. Officers are elected for a year, and duties are delegated to numerous volunteers. These are on a voluntary basis and are alternated every three months.

A staff member's responsibility to them is to be their guide to the many activities in with our other numerous programs so that it all runs smoothly. Suggestions are made occasionally in the group meetings, but the actual final decisions are up to the membership as a whole.

It is a pleasure to work with them and enjoy their company. I find that my whole way of thinking about retirement has been changed and that I am looking forward to this time.

An African Bushman, I asked how old he was and he said in his way: "I am as young as the most beautiful with my youth and as old as the most filled longings in my life."

Let me tell you that some of the saddest things about our senior citizens. First of all, loneliness is not one of their needs. These people have the value of patience over a year. All ideas for projects are welcomed and encouraged. What is important, though, is that a continued zest for living, and a willingness to contribute to the life.

He told me slightly "off color." "You late, he realized his mistake in telling it, because the silence when he finished was deafening. Our senior citizens usually looked at each other and the men present were equally embarrassed—some angry. These lies were definitely false. But not a word of condemnation was heard from members, then or even later. This is their Victorian way of behavior; it connotes no action that might lower society morally.

Before the recent city election, we kept getting numerous phone calls from the various candidates asking if they might speak before the group. We have 120 members so this represents quite a number of related families and, consequently, considerable vote power.

They take care of their own members, and they are not asked if they had lined up their political speakers. They said, we're giving each other a lot of trouble. When I mentioned that this might not be enough time for them, I heard that "if they had time, it would be in three minutes. It's not worth saying! Besides, we have a lot of time to listen to windmills."

I should not wish to paint an overly pessimistic picture, since it would not be true of this age group. So let me tell about some of the other activities in the group. Foremost of these are the workbooks of many of them have been to the YMCA to get their own social security checks just to buy drugs to keep them alive. I know one little lady who gets \$88 per month and she goes for groceries. She lives alone and actually has no one to eat with.

It is a pleasure to work with them and enjoy their company. I find that my whole way of thinking about retirement has been changed and that I am looking forward to this time.

Independence is important to all of us, young or old; no one likes to feel that it is a burden to his children or to society. Quite definitely, something should be done to lessen this overwhelming burden on many of our older folk.

Our present American society tends to neglect its older members. This is not so in other countries—China or Japan, for example. Old age is revered there and the entire household looks for guidance from its older members. It is a source of shame that while we are the most prosperous country in the world, many of our senior citizens live in a state of poverty.

Defeat Of Bill Will Save Each Worker \$52.50 A Year

As has been noted before, a legislative body can distinguish itself by what it rejects as well as by what it passes. An example is House Bill 1122, killed by an 18-8 Judiciary Committee vote, which would have cost each worker in Illinois an extra \$52.50 in take-home pay each year, as well as costing employers \$52.50 for each member of their staffs.

The bill would have created a fund from which the State Director of Labor would distribute weekly benefits to those who become ill or suffer disability not related in any way to their job duties. The idea may sound good in theory but it fails to stand up under objective study.

Job-connected disability already is covered by Illinois workmen's compensation laws, and over 80% of workers in this state are protected by voluntary wage continuation or sickness insurance plans. Employers have been the chief contributors to such plans, 11,000 of which have had to be canceled. Brunt of disability insurance costs in California now is borne totally by employees, who get less benefits than before.

A statement by the Illinois State Joint Legislative Commission on Disability Unemployment Compensation, issued in 1947, comes to mind: "When the average worker is experiencing great difficulty in stretching his income to meet extraordinary high costs and taxes, this commission is unwilling to recommend that a new tax should be taken out of his already-depleted wage or salary."

It is said there are two kinds of party-goers—those who want to go home early and those who want to go home late. Unfortunately, they are usually married to each other.

The Choo-Choo Train, Updated

How soon Americans will be traveling by rail at 125 to 150 miles an hour is a matter of conjecture, but it is exciting to realize that General Steel Industries, a pioneer local firm, is helping to blaze the technological trail by designing such a high-speed train.

Public acceptance of speeds similar to those of Indianapolis Speedway racers may be gradual, but the time when this sleek, streamlined rail car will live up to its advance description of "aerodynamically favorable."

A local nominee leaving this week for Washington is one of 45 competing for 15 positions at 1965-66 Presidential Fellows, who will serve at the White House and with cabinet heads. Judging by the vote to create a U. S. Department of Housing and Urban Affairs, DeLoach may soon be large enough to accommodate all 45.

There is an ancient proverb: "There is no vision, the people perish." Perhaps the saddest of all lamentations is that the prophets find no vision. Every generation, and especially ours, today, could benefit greatly by more men of vision. There is not a community in America that is blessed with an overabundance.

Every constructive thing in the world and in the Church to purify and uplift our vision. Dr. Brand, a noted historian, says: "Vision and labor have created all that is worthwhile in civilization. Hatred never built anything; selfishness never achieved an enduring value. If hatred and violence shall tear the world, tomorrow vision and labor must build on the ruins."

Inspiration, Guidance "Without vision there is no inspiration for labor, and no vision for the people," said Isaiah had a vision in the temple of God. In this vision, God described to Isaiah the task that he wished to see accomplished. The vision was not whimsical or solely emotional, but carried full recognition of human need. God said to him, "Whom shall I send me, and who will go for us?"

God's Plan For Us Paul wrote an overall plan for our lives. He said, "I am not compelled to live by my plan, but rather we may, if we choose, go our own willful way."

## Aspects Of Sewer Plan Are Of Serious Concern To Namooki Township Residents

Comment by a Namooki township official that an agreement with a sewer bond purchaser is a year old illustrates why many township residents are concerned about aspects of the proposal. Detailed plans for the \$1,900,000 program were not announced until last week, and were not disclosed until Oct. 19 that the township would not seek competitive bond bids. On neither occasion was it stated that an agreement already had been made.

Interest was revealed Thursday through sample publication by the township of an ordinance that may be voted on tonight by the town board. There is striking similarity between the ordinance and the aspects of the sewer plan which disclosed unannounced private sale of its Madison - Venice - Landsdowne sewage treatment bonds in an ordinance adopted this spring.

The reason cited by Supervisor Briggs is that Namooki township has not yet established its bonding rating through past issues. It is true that there have been no recent bond issues, but if buyers were interested in doing business with the township this could have been quickly shown to everyone's satisfaction by calling for bids. The experience of numerous other taxing bodies has repeatedly demonstrated just the opposite—that there is spirited competition for bonds and that it does achieve significant savings for the affected families.

There is serious doubt that Namooki township sewer bonds are a good buy; it could be a reflection on the soundness of the plan, which depends on rapid population growth or a substantial increase in the township's assessed value. The township's service charge of \$4.66 has been brought out that the three areas to be served are widely separated, and that it is costlier to transport sewage across the township than to route it to adjacent Madison and Venice townships.

State and federal regulations call for a much higher degree of treatment for the proposed discharge in Horseshoe Lake than if the sanitary flow instead was drained into the Mississippi River, and this also adds to the cost. Numerous lift stations and multiple treatment plants are included in the township plan, and additional sewers would have to be built within five years if expected growth takes place, resulting in further expenditures. There already has been a \$245,000 increase in the amount of the bond issue discussed just eight months ago.

Because the ordinance under consideration involves 40-year, multi-million-dollar indebtedness, and because the procedures and proposals raise questions which justify more thorough answers than have been provided, the town board and township residents may wish to avoid being stampeded into giving immediate approval.

Drainage needs must not be ignored. But, contrary to the impression that has been given, there is no federal requirement that Namooki township build the system that has been designed, or that the township treat sewage.

Elimination of legislators from the commission studying "the role of organized crime in the state's political life" failed last week in a House committee by a 24-6 vote. The decision was attributed to General Assembly members' "fraternity spirit," but spokesmen at Springfield neglected to say which fraternity.

The bride's parents are Mr. and Mrs. James Herbert Hensley, 2208 Richmond avenue. Mr. Taylor is the son of Mrs. Irma Taylor, 1735 Primrose avenue, and the late Albert Charles Taylor.

Rev. Frank Pierce performed the double-ring ceremony at 7:30 o'clock before an altar decorated with urns of white gladioli and pink pom poms. Burning tapers in branched candelabra, greenery and ferns were situated on either side.

The white carpeted aisle was marked with standard candelabra entwined with smilax and festooned with white satin bows. The former Miss Hensley was escorted to the altar by her father who gave her in marriage.

She was gown in pure white translucent peau de soie accented with Chantilly lace. The molded bodice was sprinkled with iridescent sequins and pearls and fashioned with a Sabrina neckline, forming a V back and traditional long tapered sleeves. Delicate lace inserts detailed the sleeves and a five-tier overlay of peach-colored tulle edged tiers crisscrossed a fan-shaped back, cascading to the skirt hem and terminated in a chapel train.

A forward headpiece of lace, embellished with crystals and seed pearls, secured a four-tiered veil of nylon illusion and she carried an off-the-shoulder bouquet of white gardenias, stephanotis and variegated ivy, centered with a detachable corsage.

Miss Patricia Kawula served as maid of honor with Mrs. Frank Alessandrilli as bridesmaid and Miss Beverly Frazier, a cousin of the bride, as the junior bridesmaid.

All wore identical floor-length gowns of Spanish-rose peau de soie. The brides were dressed in sleeveless bodices, which were designed in an Empire silhouette and their headpieces were simple

fabric roses attached with brief moline veils. Their flowers were cascades of pink and white pom poms and variegated ivy.

As his best man, Mr. Taylor chose Don Bowles, with George Crisler and Richard Hensley; the bride's brother, serving as groomsmen. Ushers were Andy Manassacino and Larry Frazier, the bride's cousins.

For her daughter's wedding, Mrs. Hensley selected a pink lace gown, while the bridegroom's mother appeared in a lace frock in a mint green shade. Both had matching accessories and corsages of pink pom poms.

The processional and recessional were played by Mrs. Jewell Everett, the bride's cousin, who also accompanied the soloist, Mrs. Robert Key, in "Through the Years," "Wither Thou Goest" and "The Wedding Prayer."

A reception was held at the church immediately following the ceremony.

# REFUNDS WILL BE GIVEN!

We at Fredman Bros. Furniture Co. have always been happy to give a refund. We are never overjoyed, it's true, but we try to smile even when it hurts. — NOW we want to make an issue of it, because we want you to come in for a refund if you can buy the same quality furniture, anywhere, for less than you paid at Fredman Bros. — If you say you can do better, OR IF YOUR UNCLE IS A FURNITURE DEALER AND HE SAYS HE CAN DO BETTER, we won't argue — we'll just cancel the "bill of sale," refund your money and thank you anyway for taking the time to see us. BUT,

**FREDMAN BROS. BUYS BIG — BUYS IN CARLOAD AND TRUCKLOAD LOTS — BUYS WHOLE FACTORY AND MILL CLOSEOUTS — BUYS COMPLETE FACTORY OVERRUNS AND OVER-PRODUCTIONS.**

The big factories and mills just naturally come to Fredman Bros. Furn. Co. when they have a good buy because Fredman Bros. buys for 15 big furniture stores at one time and they can take all the factories have to offer — and because we buy big we can buy cheaper. Yes, most of the time we can buy cheaper than our competitors because we buy for 15 big stores.

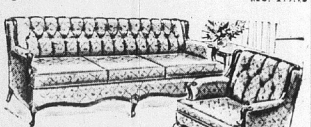

**THAT'S WHY WE ADVERTISE THAT REFUNDS WILL BE GIVEN — WE WANT YOU TO SHOP.** But we know that you can't buy Fredman Bros. quality for anything close to Fredman Bros. price.

## -Working Hard at Playing

**PLAYERS S' ROUND** Eagles' manager Gene Reinhardt (with scorebook) as he ponders decision during Park League Banquet game.

Time was when boys played their baseball on the corner lot or the street, with broomstick handles for bats, nickel rockets for baseballs and manhole covers for bases. Today, houses are on those corner lots and hordes of automobiles thunder down the streets.

Happily, kids are still playing baseball, but now with the best of equipment on level, well-kept fields under adult supervision. All this is due to the tremendous growth of organized baseball leagues for youngsters.

Locally, this growth is reflected in 113 teams playing in four circuits — the Granite City Park League, Madison-Venice Khoury League, Nameeki Little League and the Mitchell League. Nearly all of the 1700 boys in the leagues have uniforms, thanks to businesses and civic groups which sponsor the teams.

Games are scheduled for every weekday night from late May through early August. By season's end, about 1200 games will have been played.

These pictures by Press-Record staff photographers offer a glimpse into this vast program.

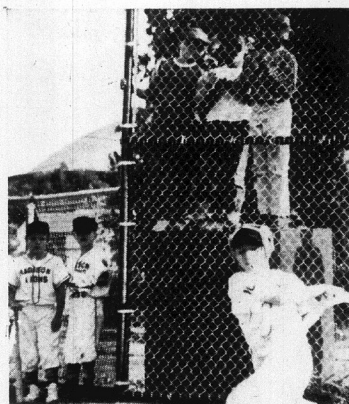

**ARRIVING IN DUST CLOUD**, Lloyd (see top left photo) slides safely into third base under St. Elizabeth's third baseman John Picanine. Lloyd wears protective head gear required for batters and baserunners.

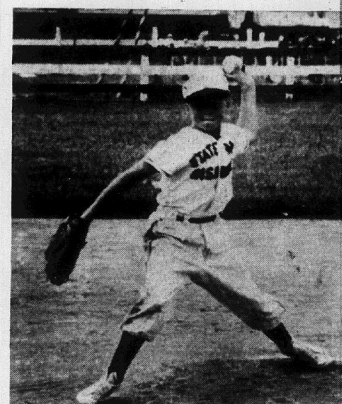

**A MIGHTY SWING** is taken by the Orioles' Mike Waldo during pre-game batting practice in the Mitchell League. He missed and coach George Casey goes down to field the pitch.

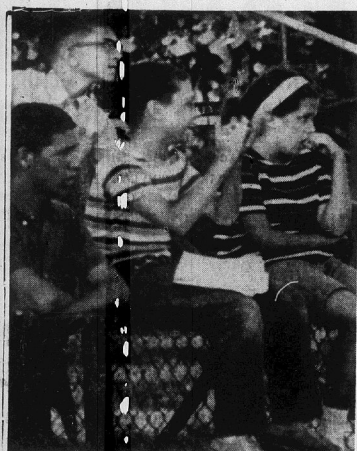

**MOTHERS OF YOUNGSTERS** involved in a game at Wilson Park follow the action from tree-shaded lawn chairs. Hurried suppers, carloads of little ball players are summer standards for the moms.

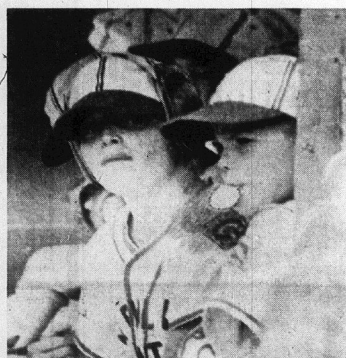

**TEAMMATES** and spectators (above on equipment box) watch Randy Graville of the Madison Lions swing in Midget contest.

**ARM COCKED**, left-hander Greg Harris of the Sportsmen prepares to deliver pitch in Nameeki Little League Major Division.

**RAILBIRDS** at a Khoury League game in Venice watch their favorites—with varied reactions. The league has three Venice fields, four in Madison.

**BUBBLE GUM** soothes Nameeki Little Leaguer Kenneth Campbell of the Champions. John Etkin observes his form. Some big leaguers blow bubbles, too.

**COMPARING MUSCLES** passes time for boys awaiting start of a midget-Atom contest. Atoms are the youngest players in Quad-City leagues which provide teams for boys from ages seven to 17.

### Child in Seat Unhurt In Three-Auto Crash

Mrs. Annalese Baker, 2341 Paul avenue, chose a last stopping suddenly at 4:15 p.m. Saturday because it would have thrown against the windshield her 21-month-old son, Eddie Baker, who was standing in the car seat. The front of her 1964 Ford Mustang coupe, 1832 Ferguson avenue, propelling it against the rear of the car of Allen Eubanks, 4233 Johnson road.

Eubanks had been waiting to turn left into his driveway. No one was injured.

## Music Under Stars Attracts Varied Audience

A cool, comfortable mosquito-less evening with music by outstanding high school and college vocalists and instrumentalists was enjoyed by about 500 persons who attended the opening performance of "Music Under the Stars" on Thursday.

The performance, directed by Warren Simpkins of the high school vocal music department, proceeded at a fast clip on the Wilson Park stage with young Robert Butler of Northwestern University as master of ceremonies.

Interruptions during the outdoor presentation were minor—a few spurring motorcycles, squealing tires, muffled cheers from the distant softball diamond and shoutings by youngsters going to and from other activities at the park.

But the soaring jet planes from Lambert Field were polite and by-passed the performance area, and the juke box at

swimming pool dance pavilion was turned down.

**Casual, at Ease Audience**  
The crowd was casual and at ease, either on the park benches lined up in front of the stage or in their own lawn chairs or lawn lounges. Only a few were sprawled on blankets. One little blonde-haired boy, about four years old, chin in hands, watching the performance intently. He perked up only when his mother arrived with an armload of boxes of popcorn.

Moments later, two young girls on a blanket behind the popcorn family, left only to return—also chomping on popcorn. The attire of the Music-under-the-Stars-goers was strictly informal—there were more ties worn on stage than in the audience.

Young girls wearing curlers and head scarves were not uncommon. There were the short shorts, middle shorts and long shorts and the stretched-to-the-limit stretch pants.

Pipe Puffers and Radios  
A young husband, wearing walking shorts and sport shirt, sat in a lawn chair puffing a curved stem pipe and reading a newspaper while listening. His young wife was knitting. Another man had a transistor radio

plugged in his left ear to hear the ball game.

Leaning against a tree chatting with several companions was a blonde, teenage youth in white tennis garb. He swung his covered racquet and maneuvered to keep his white sweater balanced over his shoulder as he commented on the performers in a soft tone.

Small youngsters, some in baseball uniforms, wandered through the audience enroute to and from the pool refreshment stands, and there were several babes in arms being bottle-fed.

Dogs—pedigreed poodles and dachshunds—leashed to their owners' chairs, were plentiful, and there was the inevitable mongrel that was lost and searching for his master.

**In Setting of Trees**  
Oldsters and youngsters were everywhere to compliment the setting for the musical program.

The stage had a backdrop of white birch, elm and weeping willow trees. The cool breeze disturbed only one pianist-accompanist, and she was able to handle her flapping sheets of music without assistance.

The initial performance was Carolyn Jenkins, who played four waltzes. The others with roles on the program included Miss Diane McGovern, pianist, and Richard McKinney, pianist. Terry Van played a trombone solo, James LeGrand several flute solos, and there was a woodwind group that included Gloria Caban, Barbara Lucovell, Marilyn Sheppard, Kathy Zent, and William Winter.

Vocal solos were by Raymond Talley and Raymond Voorhees. Mrs. Warren Simpkins was accompanist.

A cutting from James Thurber's University Days was given by Butler. At the conclusion, Simpkins announced that he had learned Butler was top student in his class of 2000 at Northwestern.

This week's program, also at 8 o'clock Thursday at the park, will be International Night, Simpkins said.

Featured will be the costumed dancers and singers of the Mexican Honorary Commission, the Croatian Young Tamburitzans and a Madrigal singing group of summer program high school students.

**Why do more and more  
smart builders display  
this Medallion?**

**Because more and more smart home  
buyers insist on a Medallion Home**

This Medallion establishes an immediate bond of trust and interest between the prospective home buyer and the builder.

Both recognize the value of this symbol as assurance of the highest standards of electrical living. Both know that a Medallion Home can be shown with pride and purchased with confidence.

The Medallion on the door means Illinois Power has checked the home for adequate wiring, heavy duty circuits, special purpose circuits, general purpose circuits, outlets, light wherever it is needed, and at least four major electric appliances, including an electric range.

Happier living . . . better living, electrically! Yours—for sure—when the Medallion is displayed on the door.
